

MARTIN
MATĚJÍČEK

CZECH TRIALS CHAMPION

I DO WHAT
I LOVE AND I
WILL NEVER
GIVE UP

NAME: Ing. Martin Matějčíček

COUNTRY: Czech Republic

BIRTHDATE: 9.8.1995

PROFESSION: Czech trials rider

RIDING SINCE: 2003

MOTTO: If you don't know how to get over
an obstacle, try 3rd gear wide open.

ABOUT ME

My name is Martin Matějček and I have been riding moto trials since 2003. For those people who do not know this sport, it is a very unique and attractive non-speed event on specialized motorcycles, which is split into sections where a competitor rides through a natural or constructed obstacle course while attempting to avoid crashing, touching the ground with the feet and damaging the marking of the section. The rider with the fewest penalty points wins. In the past, I fully dedicated myself to racing, participating in the World Championships, European Championships, and other international competitions. These experiences provided me with a solid foundation and a wealth of experiences and memories. Currently, I participate in selected competitions, focusing especially on the Czech Republic Championship series and the prestigious Trial of Nations. My presence on the racing scene is now more selective, with a preference for show performances that allow me to share my passion for moto trial with audiences. To get good results, I must keep practicing on my motorcycle almost every day. Except riding trials, I do also some other physical sports to be fit – for example cycling, cross country skiing or yoga. I'm currently also studying Ph.D. degree of Information and Knowledge Management at the University of Hradec Králové.

TRIAL DES
NATIONS
2015, SPAIN

SPONSORSHIP

There is no way to move forward, to get better or to attend competitions without having product or financial supporters. In return for this, I offer to my sponsors promoting their companies at all the competitions, shows, social networks and in videos using their logo which would be placed on my riding clothes, helmet, motorcycle and on my car. The face of your company can be associated with an interesting project that we can make up together and this would make an unique adrenaline advertisement for you.

RIDING
GEAR IS A
GREAT PLACE
FOR YOUR
LOGO

MY PROJECTS

- **TRIAL SHOW** - moto trials show of the Czech trials champion
- **MOTO SCHOOL** – individual motorcycle lectures (not only in trials)
- **2M CARBON PARTS** – special carbon fiber motorcycle parts made in the Czech Republic

TRIAL SHOW

To bring moto trials to the public and make use of my experience, I also participate throughout the year in a number of shows that can be part of the accompanying program of any event. Whether it's a corporate event, motosraz, city festivities, sports events, festivals or a children's day, guests or visitors are always glad to see a show that is unconventional and uncluttered. I come to the event with a specially modified trailer, which after the transformation turns into a trials park. So I bring all the obstacles and the organizer does not have to worry about anything. My show includes various jumps, jumps between obstacles, balancing on the back and front wheels and rotation. I can moderate my performance by myself and I usually ask for brave volunteers who will become my obstacles afterwards.

MOTO SCHOOL

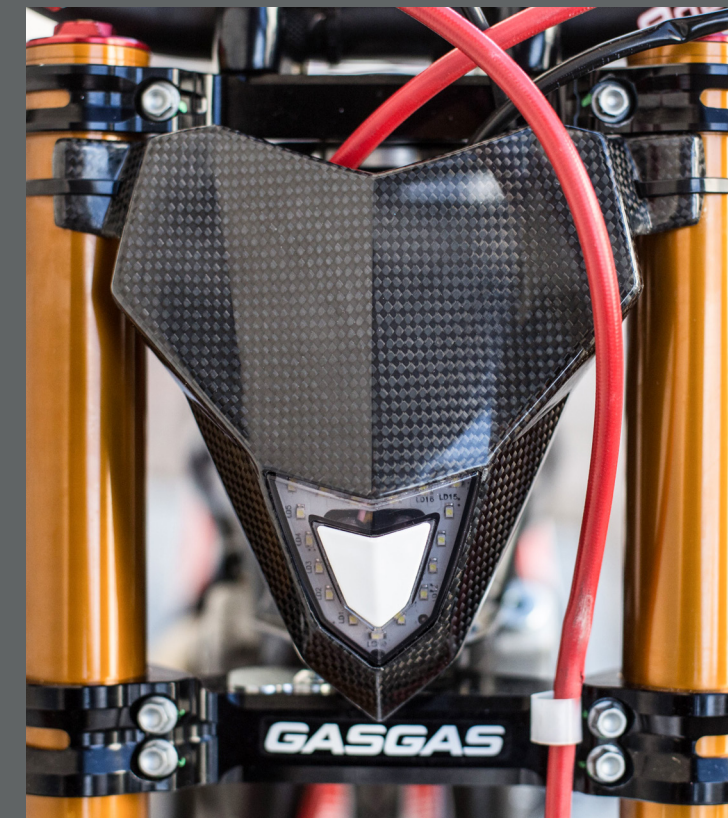

Is motorbike a good friend of yours and would you like to learn something? Everyone would want to jump, roam the roots, ride hills, drive stones, and so on. Unfortunately, this is not possible if you skip the basics and if you do not have the right technique. I can give you many years of experience to help you to avoid hopeless attempts, injuries, and get you to a higher riding level. The basics of moto trials is also perfect for other moto disciplines. (enduro, road, cross) We can choose time, place, terms and conditions, and I can take care of you individually to improve your riding skills. I will show you the correct execution of the individual elements, we will find together your mistakes and I will give you an advice how to to it correctly. There is no reason to be ashamed, I am able to help you whether you are a complete beginner or an advanced rider. There is also a possibility to rent a trials motorcycle.

I am an owner of company that is focused on producing TOP quality carbon fibre parts for trials motorcycles. All of our products are handmade in the Czech Republic and they are being used by the best riders in World and European Championship. At this time we produce parts only for trials bikes but in the future we will be manufacturing parts also for MX/enduro and some other motorcycle sports.
